The Chancellor

As one of the top universities of Pakistan, University of Karachi has an impact not only at national level but globally as well. I find it indeed commendable that this premier institution of learning is skillfully and eagerly imparting technology and advancement in its courses. The current era marks considerable progress and development in all the areas, be it research, academics or infrastructural development.

One must keep in mind that knowledge itself is the only path that takes you to the vast horizons of leadership and helps you explore and discover the veiled truths of life. However, research based higher education results in ultimate success of not only an individual but also that of the entire nation.

To the prospective candidates, who seek admission in this University, my advice is to blend contemporary norms with classical approach and strive for a better future while keeping yourselves connected with past traditions and values. Being the backbone of this country, our youth has to drive the nation through existing challenges.

I am glad that University of Karachi has updated its courses and syllabi to face the contemporary challenges. The expert faculty and enhanced facilities are indeed an attraction for brilliant students who, after obtaining their degree from this institution, can meet the international standards.

I wish all of you best of luck and a successful professional career.

Dr. Ishrat-ul-Ibad Khan

Governor Sindh / Chancellor University of Karachi

Message from

The Vice Chancellor

I welcome all the keen seekers of admission to the University of Karachi, who can secure admission in the desired department by satisfying the specific criteria. I find it important to highlight that the University of Karachi is untiringly struggling to promote higher education in the region. Due to this fact, University of Karachi stands in the list of top 200 Universities in Asia. Nevertheless, this journey of rapid development does not limit itself to the current international ranking only; we are rather trying very hard to take our Alma Mater to the list of top ten universities in the World. In this relation, extensive developmental work is being carried out in every sphere of the University, be it academic or administrative.

Our teaching and research is on a par with the international standards and address issues that have a global impact. Despite acute financial crises, the facilities that the University provides make the learning process easier and interesting. In short, we are fervently trying to raise a well-educated, professionally skilled and technically advanced new generation in Pakistan.

It is a matter of pride for me that the name of University of Karachi is a guarantee for absolute success and leadership in every field. This has been possible because of its alumni who are serving at outstanding positions at all levels of societal and professional brilliance.

As far as the admissions 2015 are concerned, I must say that we follow very strict merit criteria for admission in all the departments. Self-finance seats are introduced for the prospective students but even there the basic merit criteria are not compromised.

I wish best of luck to all those who wish to join University of Karachi for further studies and ensure that merit is given the first priority at University of Karachi.

Prof. Dr. Muhammad Qaiser
Vice Chancellor

The Journey Begins Here

University of Karachi emerged as prestigious national institution imparting quality education at the higher level. University of Karachi was established by the Pakistan Parliament through University of Karachi Act that was passed in 1950 which made it a Federal University in 1951. Later, in 1962 its status was redefined as a University in the province of Sindh. The University was initially housed in a congested compound of a few buildings situated at the old Princess Street near Civil Hospital. The polluted and congested environment was not conducive to the academic and research activities which is required for a quality output. Considering the need, the authorities sanctioned a plot located on the Country Club road (now University Road) with an expanded area of 1279 acres of land.

University of Karachi is enjoying the status of a thriving and challenging academic community today, dedicated to excellence at all levels of higher education and research. This premier institution has emerged as a dynamic place which keeps pace with academic advances and changes in the real world. A number of scientists and scholars affiliated with the University possess significant positions both within and outside Pakistan. They have been acclaimed as active and dedicated members of society who are striving to bring positive change and development in the intellectual mindset of the people of Pakistan.

Considering the increasing number of applicants every year, the University initiated its Evening Program a few years ago at Bachelor and Masters Levels. An independent Directorate of Evening Program has been set up to deal with the matters pertain

ing to it, including admissions, academics and administration. At present, Karachi University offers BS/BA/B.Sc/BBA/BPA (Honors) and Masters Program in seven Faculties, namely: Social Sciences, Education, Science, Pharmacy, Islamic Studies, Management & Administrative Sciences and Engineering.

Being an affiliating and examining body, University of Karachi has granted affiliation to almost 145 colleges and institutions. It conducts examinations of about 150,000 students studying in these colleges / institutes, prepares their results and awards degrees.

The value of a University of Karachi degree is acknowledged throughout the world, an evidence of which is the inclusion of this institution in the list of top Universities of the World, for the third consecutive year. The ranking was carried out by world's most prominent ranking agency Times Higher Education and Quacquarelli Symonds (QS) UK. University of

The Golden Door of Success...**

Karachi was ranked among the Top 400 institutions in the world in the subjects of Arts, Humanities, Social Sciences, and Life Sciences.

To further strengthen the standards of education and research, the University has established a Quality Enhancement Cell (QEC) in the main administration block of the University. The main objective of the Cell is to introduce self assessment program in all disciplines offered at the University.

Admissions, this year, are offered to the following degree programs simultaneously: BS (four years), B.Sc., (Honours-three years), BA/LLB (Five Years), LLB (Three Years) and Masters (two years). The alumni list of University of Karachi contains well-known

names such as Prof. Dr. Atta-ur-Rehman, Dr. Abdul Qadeer Khan, etc. The fact makes the University feel proud that these eminent figures are known for their services rendered to the promotion of higher learning and research.

Preference in admissions is given to "**K**" category candidates. If seats are left vacant, "**S**" category candidates are considered. If seats are still available then consideration is given to "**P**" category candidates.

As per directives of the Academic Council, 90 seats have been allocated for the students of Interior Sindh, besides "**S**" Category, in those subjects which are not offered in the Public Sector Universities of Interior Sindh.
